StarLeaf workflows

Leveraging StarLeaf for remote working

Remote working workflows

Workplace scenario	StarLeaf remote working response
Do you have a moment?	Use StarLeaf messaging to instantly message colleagues
Glance over to your colleague's desk and look to see if they are busy or free	Use StarLeaf app to check your colleague is online and free to talk / message
Drop by your colleague's desk for a chat	StarLeaf point to point calling allows you to meet with anyone
Let's quickly pop into the meeting room to have a catch up	StarLeaf group messaging can instantly be turned into a 'meet now' meeting with just one touch
Let's have our 'sales call' tomorrow	Whichever calendar you use, schedule your meeting via StarLeaf scheduler
Let's see what Sarah thinks…oh, and Kevin's coming too…	StarLeaf lets you have ad hoc meetings with participant(s), while answering an incoming call, and then adding that participant to the meeting
I need to speak to HR…	StarLeaf hunt groups let you find and meet with someone from the correct group

Remote working workflows

Workplace scenario	StarLeaf remote working response
I really need to get my work done…	Set a 'do not disturb' alert for any time period on StarLeaf, so colleagues know you are not available
Can you take a look at this presentation when you have a moment?	Attach and share a file(s) on your StarLeaf participant / group chat
Can you look at this document now?	You can instantly share your screen for all participants to view using StarLeaf
I don't like working alone. I like to have company. I like the atmosphere in the office	StarLeaf lets you have an always on meeting, so you never miss a thing
I'm the boss – even if my staff are in a meeting room or on a call, I can interrupt them if I really need to	If you are in a meeting, you can receive a second incoming call when using StarLeaf
