

# MiCOLLAB & MiTEAM MEETINGS FOR REMOTE WORKERS

Keep your employees productive from anywhere with easy-to-use collaboration tools

## Key Benefits

- Work from anywhere with web and mobile applications
- Video, voice and chat in one integrated solution
- Start live video sessions from chat and calls
- Conduct business calls with an easy-to-use softphone
- Send messages and files instantly
- Maintain all team interactions with virtual workspaces
- A single point of access for all communication and collaboration needs

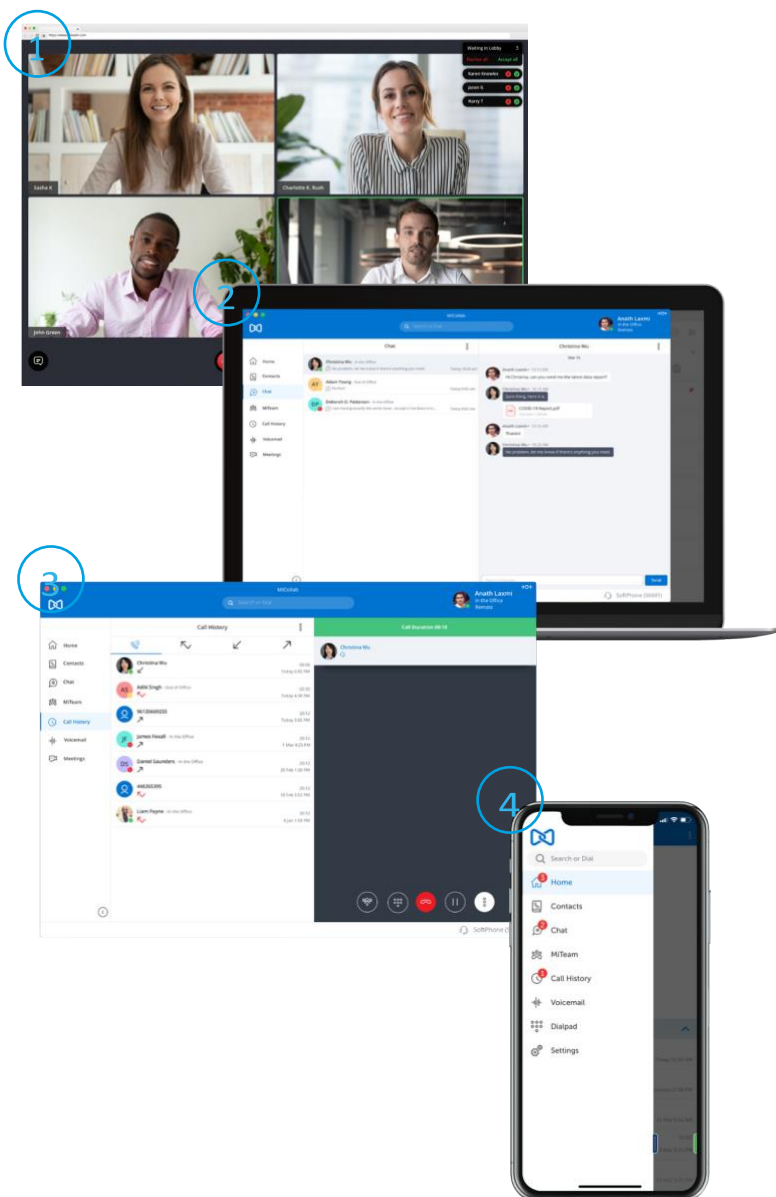

Mitel's MiCollab and MiTeam Meetings has all the voice, chat, and video capabilities you need to seamlessly collaborate with anyone and at any time.

Remote workers need a business solution that allows them to get work done, regardless of their location.

Work is no longer confined to the traditional office building. Now, it can be done at home, in the car, and even while waiting to board a plane.

MiCollab and MiTeam Meetings are made for remote workers who to collaborate and communicate effortlessly as if everyone was in the same room.

With integrated voice, chat, and video capabilities, MiCollab and MiTeam Meetings simplifies the way your remote will employees talk, meet, and share information.
