

# Thinker Connect

Turn any display into a collaborative touch-interactive whiteboard.

An easy mount setup clips onto a wide range of screen sizes, working with the sleek ergonomic stylus to convert them into an interactive whiteboard with intelligent video conferencing.

## Bringing the world of business to you

Add text, images and videos directly from the built-in search engine.

Multi-user collaboration with up to 255 multi-touch points.

Smart tools give an array of writing options and convert handwritten notes into digital text.

Unlimited pages on a digital canvas.

Fully compatible with third-party applications on Mac and PC.

## Video Conferencing

Wide angle camera so everyone can be seen clearly.

Intelligent microphone that focuses directly on the speaker.

Highly compatible with all the major collaboration tools.
