INTRUSION **PREVENTION SYSTEM (IPS)**

Vulnerabilities protection with integrated FortiGuard IPS.

FortiGuard AI/ML-powered IPS provides near-real-time intelligence with thousands of intrusion prevention rules to detect and block known and zero-day threats before they reach your devices.

Why Fortinet's IPS?

PROVEN SECURITY AND PERFORMANCE

Get superior threat intelligence and unmatched performance.

ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

FortiGuard Labs leverages artificial intelligence (AI) and machine learning (ML) to deliver fast, effective, cutting-edge protection from known and zero-day attacks.

HIGHEST PERFORMANCE AND VALUE

FortiGate IPS with consolidated SSL decryption offers the industry's highest SECURITY COMPUTER RATING of up to 23X.

FLEXIBLE SUBSCRIPTION-BASED SERVICE ACROSS THE SECURITY FABRIC

FortiGuard IPS Security Service provides coordinated vulnerability protection across devices, networks, and clouds.

VIRTUAL PATCHING AND VULNERABILITY SCANNING

Virtual patching at the network level protects against vulnerabilities that could be exploited on unpatched devices. Vulnerability scanning on a client, proxy, and WAF will provide the information you need to reduce security risk.

Itec Security

Protect your company, employees, customers & confidential information from anywhere.
