ZERO TRUST **NETWORK ACCESS (ZTNA)**

Controls access to applications,

Fortinet ZTNA improves secure access to applications anywhere, for remote users. Our unique approach, delivering Universal ZTNA as part of our FortiGate Next-Generation Firewall (NGFW) makes it uniquely flexible, covering users when they are remote or in the office.

Why Fortinet's ZTNA?

FORTIGUARD SECURITY

Integrate FortiGuard Security Services for protection across networks, endpoints, and the cloud.

FORTICARE SERVICES

Implement FortiCare services to accelerate security deployment and maximise uptime.

ZERO-TRUST POLICY

Zero-trust policy both on and off the network.

DATA KEPT PRIVATE

Automatic encrypted tunnels for data privacy.

NO EXTRA COST

No additional licenses required.

PROXY-SECURE APPLICATIONS

Hides applications from the internet behind a proxy.

Itec Security

Protect your company, employees, customers & confidential information from anywhere.
