

10 REASONS: WHY NEC?

Proven World-leading Advanced Technologies

Forefront development of cutting-edge IT and network communications, biometric recognition, and IoT and AI Technologies.

100 Years Of Expertise

A leader in ICT solutions since 1899, NEC applies its long-term IT and network expertise to tailoring today's data-driven technologies.

Extensive Business Reach

Scale doesn't scare us. We tailor many familiar and future solutions for the data-driven era and innovative global social infrastructure.

Excellent Global Track Record

Reliable NEC solutions are successfully serving many future-looking companies, nations, smart cities and developing communities across the globe.

A Globally Recognised Innovator

Recognised in Top 100 Global Innovators for 11 consecutive years and included in FORTUNE GLOBAL 500.

A Social Value Creator

Committed to the innovation of advanced social infrastructure that guarantees safety, security, efficiency and equality for all.

Over 110,000 Employees Worldwide

Our 117,418 employees worldwide work closely with local customers in more than 50 countries and coordinate multinational partners to tailor the best solutions.

Boasts Around 45,000 Patents

Our 45,000 patents prove we often get there first and provide clients with a wealth of unique cutting-edge technologies.

Environmental Value Through Business

Seek to reduce the environmental impact of our business and broader society by providing smart, environment-conscious products and services.

Focused Commitment To SDGs

Partner with the UN and international organisations to solve challenging social issues and achieve sustainable development goals.
