Outsource your IT for managed digital transformation.

ITEC IT
INNOVATIVE IT

BACKUP & **DISASTER RECOVERY**

Mitigate your risks with proactive planning

All-encompassing, real-time backup and swift disaster recovery solutions to safeguard your data and business.

We will design, implement, and maintain solutions to improve business resilience and ensure continuity. Your business can't afford disruption, nor the additional expenses to recover lost data. That's why we offer a wide range of technologies to suit your business needs and budget.

Our experts get to know your business and prepare a perfect-fit backup solution with rapid recovery protocols for all possible disasters before they strike.

Never lose a second's work. Downtime and data loss can be devastating, but with Itec IT, your business wheels keep turning. We harness the power of best-of-breed technologies to offer comprehensive backup and disaster recovery solutions to suit any size company across a broad spectrum of industries.

Manage and recover vast quantities of business-critical data

Today, information-intensive business demands have companies creating data across an array of storage environments at exponential rates. Despite this, less than 50% of small and medium-sized businesses back up their data weekly.

The world produces about 2.5 million terabytes of data per day.

WHY **ITEC IT?**

MITIGATE YOUR RISKS WITH PROACTIVE PLANNING

Secure your business-critical data

- A single access-point for administration, backup management and disaster recovery processes.
- On-site backup for all local data retention and restorations.
- Fully customisable backup schedules.
- Enterprise-grade encryption, de-duplication and compression standards.
- Multiple RPS (Recovery Point Servers) in the country's most reliable and secure data centres.
- On-premise or cloud-based High Availability, Virtual Standby or Business Resilience for all business-critical servers (RTO/RPO Dependant).
- Optional Layer 2 VPN connection directly into our data centre.
- Daily checks of backups and weekly restore testing.
- Weekly reporting.
- Scheduled annual DR testing for disaster recovery scenarios.

Compliant and wholly outsourced for peace of mind

PEACE OF MIND

We take responsibility for the solution from start to finish, including regular testing, upgrades and identifying new possible threats.

BUSINESS AS USUAL

Our swift, decisive response enables minimal downtime for you to maintain business operations, productivity and customer SLAs.

FULLY COMPLIANT

We employ the strictest measures to guarantee compliance with data protection laws such as POPIA and other regulations.
