Outsource your IT for managed digital transformation.

ITEC IT
INNOVATIVE IT

CLOUD **SOLUTIONS**

Private, Public and Hybrid Business Cloud Solutions

We deliver safe, secure, and reliable Cloud Solutions that guarantee predictable availability for your organisation.

Improve your organisation's agility and strengthen your business continuity measures by harnessing the power of the cloud. Cloud Computing (or just the cloud) has fast become the standard in business storage, collaboration and so much more! The beauty of the cloud is that it offers unprecedented business flexibility as it is quick to deploy, highly scalable and reduces infrastructure expenses. The cloud also plays an integral role in your backup and disaster recovery solution.

Itec IT's cloud services places best-of-breed technologies within your reach. With the right technology at your fingertips, David can pack a Goliath-sized punch - giving you the competitive edge you need to take your business to new heights.

Flexible and Mobile Cloud Solutions With Itec IT

Gain a competitive edge in your industry using our best-of-breed technology. The cloud enables business mobility like never before.

Work from anywhere, anytime, and collaborate with team members around the world in real-time.

WHY **ITEC IT?**

GET **THE COMPETITIVE EDGE**

Private Cloud Solutions: On-premise Cloud (OPC) and Infrastructure as a Service (IaaS)

- Take advantage of the benefits of cloud computing while remaining in full control of your resources.
- Our on-premise cloud (OPC) solutions are perfect for security-conscious businesses who want the benefit of the cloud but prefer to house their servers on-site. OPC places dedicated hardware in your premises as a fully managed service.
- We provide all your hardware and software resources via a convenient on-demand payment model, giving you the flexibility to scale up or down as the need arises.
- You receive the full benefit of the cloud's flexibility and cost-savings without the capital outlay.

Managed Cloud Solutions

1 Cut the cost of acquiring and maintaining expensive IT hardware. With our managed cloud computing, you get on with business while we manage your cloud solution.

2 We call it delivering predictable availability. This means we will ensure your solution is constantly updated, upgraded, backed-up and functioning at optimum levels.

3 Managed solutions include maintaining the upkeep of your hardware - giving you complete flexibility and peace of mind.

Hybrid Cloud Solutions

- Enjoy high security while still reaping the benefits of a public cloud service. It is the best of both worlds.
- We offer a combined solution with both managed and OPC options. Your critical data and applications remain hosted on a private cloud while receiving public cloud services for shared resources and balance workloads between the two.
