

# Mitel One

**SIMPLIFYING**  
the Way  
Businesses Talk,  
Meet, and Share  
Information

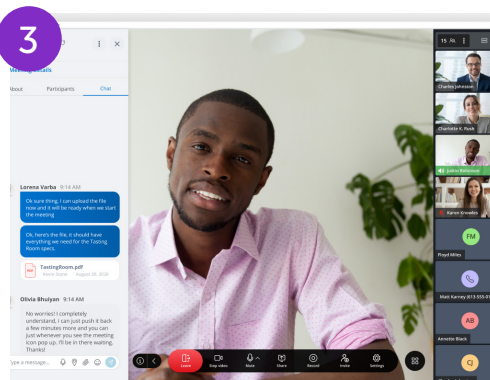

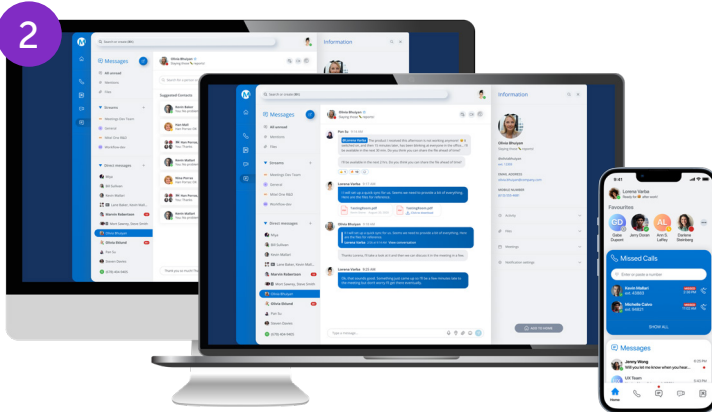

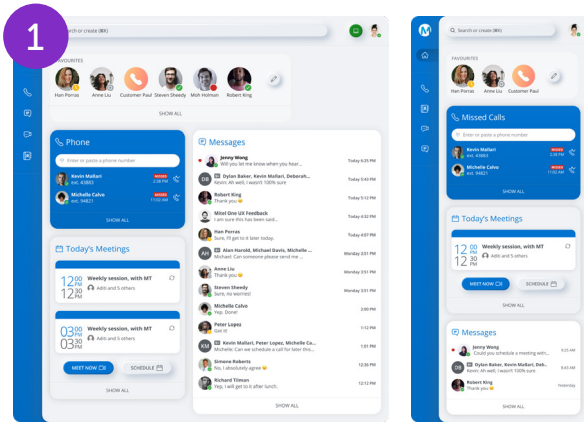

- Single application for all your communications
- Equip employees with the tools that offer the flexibility to work from anywhere
- Reduce the cost and time of managing multiple applications
- Get straight to work with a user experience that's designed so there's nothing to "figure out"

**Effective communications are critical for every business.** All employees need tools to collaborate with each other and engage with customers based on the way they work.

## Bring all your communications into a single intuitive application

Mitel One engages employees by bringing your communications technology into a single app so workers don't have to flip back and forth from disjointed tools.

With everyone on the same page, Mitel One keeps communications flowing no matter where employees are and what device they're using so that productivity doesn't depend on location.

## Flexibility to work from anywhere

To retain your top talent, your employees need to be engaged, satisfied and empowered with the flexibility to work smarter — not harder — from anywhere. Mitel One brings phone, messaging and meeting apps together to unlock the productivity potential of your organization to make faster decisions, nurture great ideas and engage customers in meaningful ways.

### KEY FUNCTIONALITY

- See all your communications at a glance from the home screen
- Collaborate with your team through video, voice or messaging with a single click
- 1:1 Direct Messages, Group Messaging or Message Streams
- Share files, voice notes, location, or chat with groups in messaging streams
- Run from a Web Browser/Progressive Web App on your desktop or as a mobile app

- 1 **Work Your Way**  
Prioritize the communications that matter most to your employees so they can focus on what's important to them.
- 2 **Desktop and Mobile App**  
Empower your employees with the flexibility to work from anywhere on any device.
- 3 **Voice, Messaging and Video—All in One Place**  
Take part in a seamless collaboration experience with fluid transitions between voice, video, and chat, all within a single solution.
