ITEC™

Print Director Manager

Streamline & Optimise Your Printing Processes

Print Director is the trusted Print Management Software for many large, medium and small businesses in South Africa, Africa and Ireland.

Key Features

Centralised Print Control

Manage all devices, monitor print jobs, and set policies from a central hub.

Cost Tracking and Control

Gain insights & allocate print costs through extensive reporting.

Secure Printing

Protect sensitive documents with PIN code or your company access card authentication at the device.

Mobile Printing

Print from mobile devices for flexibility and productivity, supporting various platforms.

Environmentally Friendly

Implement green initiatives like duplex printing and auto-deletion of uncollected print jobs to reduce waste and support sustainability goals.

Benefits at a Glance

Cost Savings

Optimise printing resources for significant cost reductions by eliminating unnecessary prints and reducing paper/toner consumption.

Improved Efficiency

Enhance overall productivity by streamlining print workflows and minimising downtime through the implementation of "Follow-Me" printing.

User Convenience

Allows users to release their print jobs from any network device, ensures user productivity and improves users print experience
