ITEC

Digitise

Reduce dependence on print, optimise document management and streamline processes.

Integrate

Integrate digital solutions, automation and data analytics with existing systems and processes.

Optimise

Save costs and align with business objectives to increase profit, productivity and efficiency.

WHAT IS ITEC MPS TRANSFORM?

Itec MPS Transform is more than just a managed print service.

Whether your business is an SME or large enterprise, Itec MPS Transform lays the foundation with standard MPS like secure release print, proactive technical service and consumables management, and tracking and management of printed documents.

What elevates ordinary print management into Itec MPS Transform is a scalable and fully customisable solution with the power to drive down costs, empower you to take control of your business processes, and can even increase profit with analytics that drive business intelligence.

Cloud-hosted document and print management solutions with a reliable service provider give businesses robust security, cost savings, and operational efficiency, offering seamless scalability and flexibility.

- PaaS and SaaS to easily activate or deactivate services.
- Optimise infrastructure without long-term commitments.
- Reduce print volumes and redundant hardware.
- Shift from physical to digital workflows.
- Reduce dependency on on-premises infrastructure.
- Automate key processes.

EVOLVE. TRANSFORM. THRIVE.

ITEC MPS TRANSFORM

MANAGING SO MUCH MORE THAN PRINT.

Save Costs & Align With Business Goals

Increase Profit, Productivity & Efficiency

FOR SMEs

- Cloud-first architectures, and platform ecosystems.
- Cloud-native, AI-driven print and workflow automation.
- Intelligent analytics for actionable insights.
- Seamless end-to-end document lifecycle management.
- Cyber-resilient security for hybrid and remote teams.
- Scalable, subscription-based PaaS model.

FOR ENTERPRISE

Enterprise solution includes all SME features plus:

- Full SaaS and PaaS integration for unlimited scalability.
- AI-powered predictive analytics and issue resolution.
- ESG compliance tools for regulatory alignment.
- AI-augmented backend integrations for hyper-personalisation.

AN INNOVATION ENGINE

Itec's MPS platform isn't just a cost-saving tool - it's an innovation engine, empowering enterprises to adapt, scale, and maintain a competitive edge in real time.

MORE THAN A MERE DOCUMENT SOLUTION

While traditional MPS is a mere document solution, Itec's eliminates silos, enables real-time adaptability, and future-proofs operations in a dynamic digital economy.

SOLVING BUSINESS PROBLEMS

Itec MPS Transform saves costs and aligns with business goals and objectives to increase profit, productivity, and efficiency.

DIGITISE, INTEGRATE, OPTIMISE

Itec leverages cloud agility, automation, and data intelligence to sustainably integrate and optimise scalable, adaptable, and future-proofed systems, processes, and workflows.

SAVE UP TO

45%*

IN PRINT COSTS

with print services that transform document management into business intelligence.

* When implementing enterprise-level managed print with data structuring & actionable analytics.

ITEC MPS TRANSFORM IN 6 STEPS

Itec's MPS methodology solves business problems, not only paper jams.

Designed to optimise efficiency and reduce costs, our approach ensures seamless integration with minimal disruption, continuous performance monitoring, and proactive support to maximise uptime.

With built-in automation, robust security, and scalable solutions, we help your business streamline workflows and make smarter, data-driven decisions.

Our innovative Print-as-a-Service (PaaS) model transforms print management into a strategic advantage - boosting productivity, operational efficiency, and long-term profitability.

1 Audit & Assessment

An in-depth analysis of your entire print infrastructure identifies existing inefficiencies in expenditure and workflows.

2 Design & Strategy

Our expert consultants strategise the most efficient and cost-effective solution after identifying your unique business goals and objectives.

3 Deployment & Implementation

A seamless fleet deployment and integration of systems into existing processes ensures a smooth transition, minimal downtime, and successful change management.

4 Continuous Monitoring & Reporting

Monitoring and managing print devices optimises efficiency and cost-savings, while reports on usage, costs, and trends support informed business decisions.

5 Remote Support, Automation & Maintenance

Proactive issue resolution provides instant support for print-related issues, and automated service requests reduce downtime with self-healing printer technology.

6 Paas & Innovation to Transform MPS

Itec MPS Transform not only manages print but also processes. In addition to offering robust security, cost savings, and seamless scalability and flexibility, it also leverages data for business intelligence that can boost profits and operational efficiency.
