PRINT DIRECTOR LAUNCH

ITEC

printcool 360

1

Secure Document Release

Ensure that sensitive documents are only released when the authorised user is present, preventing unauthorised access and improving document security.

2

Follow-Me Print

Print from any device or printer within your network, and retrieve your print jobs from any connected printer, streamlining workflow and reducing waste.

3

Enhanced Document Security via Encryption

Encrypt documents to protect confidential information, ensuring that your business meets compliance standards while safeguarding sensitive data.

4

Driver and Queue Management

Simplify printer driver installation and management, as well as optimise print queues, ensuring a smooth and errorfree printing experience for all users.

5

Active Directory Synchronisation

Automatically sync with your organisations Active Directory to ensure accurate user permissions and simplify user management across your entire network.
