

ELECTRONIC SIGNATURE

Introducing our streamlined signature tool.

A secure, intuitive e-signature platform that simplifies document signing, enhances workflows, and ensures compliance for businesses.

Features & Benefits

Secure PDF E-Signing

With the help of robust encryption algorithms, Itec Signature ensures maximum security, privacy & compatibility.

Annotate Documents

Itec Signature allows you to annotate PDF documents with an advanced signing pad that allows hand drawn signatures, uploaded images, typed signatures & saved signatures for the simplest document signing experience ever.

User-Friendly Interface

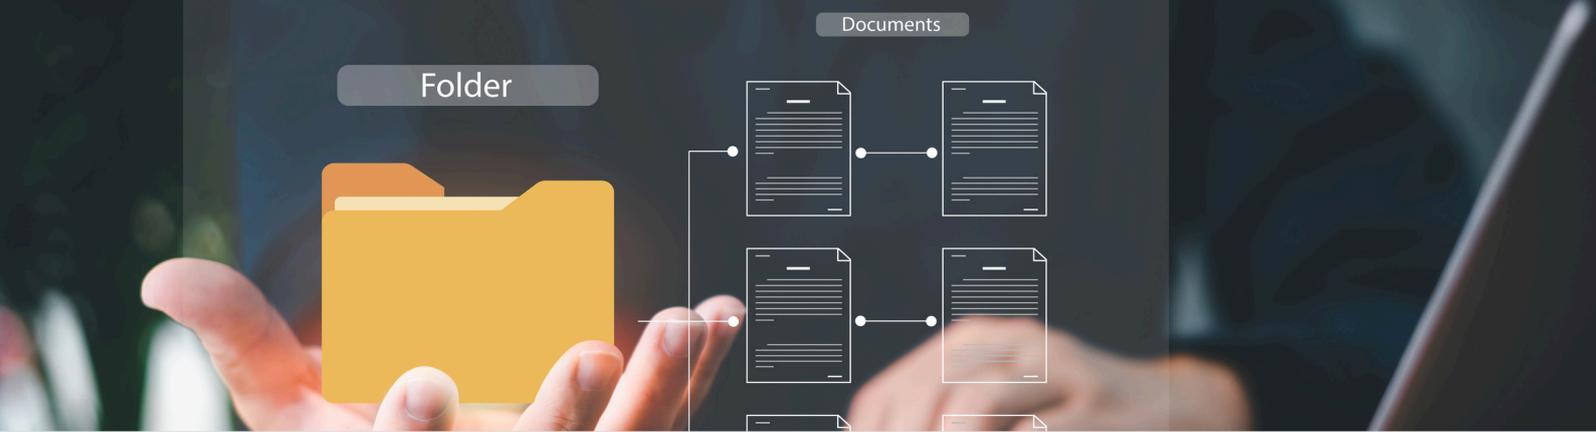

Itec Signature was built while keeping Intuitive design in mind for ease of use. Features like "Sign yourself", "Templates", "One click signatures" and "Signature Drive" makes it stand out of the crowd and even makes it better than a lot of so-called industry leaders. Itec Signature intends to provide the best document signing experience in the ecosystem.

Multi-signer Support

Itec Signature's ability to invite multiple signers for signing along with the ability to invite by sharing signing links & being able to enforce signing in a sequence makes it the only solution that is fully loaded and allows it to compete head-to-head with established players in e-signature space.

UNIQUE CODE VERIFICATION FOR GUEST SIGNER

With Itec Signature, your documents are fully secure even when being signed by guest users. Guest signers can only sign the document after entering a unique code sent to their email address.

EXPIRING DOCS & REJECTION

You can set documents to expire after certain number of days after which nobody will be able to sign. Not just this, Itec Signature also allows signers to reject signing a document with a reason that will be promptly shared with the sender.

BEAUTIFUL EMAIL TEMPLATES

All document signing invitations, completion notifications & reminders are formatted using great looking email templates. Not just this, you are even allowed to customise the email templates making your free document signing invitations look the way you always wanted them to be.

PDF TEMPLATE CREATION

Itec Signature allows you to create and store PDF document templates for repeated use thereby saving you a lot of time & collect e-signatures seamlessly.

SIGNATURE DRIVE

It is a centralised secure vault for your digital documents that makes storing, signing, organising, sharing & archiving your docs a breeze.

AUDIT TRAILS & COMPLETION CERTIFICATE

Being a security focused solution, Itec Signature makes it a top priority to save detailed logs for tracking document activities along with time-stamps, IP addresses, email IDs & phone numbers. A completion certificate is generated as soon as document is completed which contains all the document related logs for added safety.

INTEGRATIONS

The document signing experience becomes even more seamless because of integrations with various Cloud storage systems, CRMs & enterprise platforms. We also have an assortment of integration opportunities that allows you to integrate it with virtually any application.
