

# Reimagine Your Document Management

Effortlessly Manage Your Documents and Accelerate Business Processes with AI-Powered Enterprise Content Management

*We quickly learned the sky's the limit with GlobalSearch.*

Melissa Godinez, Director of Technology and Strategic Operations at  
Volunteers of America, North Louisiana.

Square 9's Enterprise Content Management (ECM) platform is a comprehensive solution designed to help businesses automate, organize, and streamline their document management processes. With powerful features and cutting-edge AI technology, Square 9 empowers your teams to work the way you want to work, driving efficiency, compliance, and productivity.

**Automate Processes** using customizable workflows that meet your unique needs.

**Obtain Fast ROI** with low-cost, no-code implementations that limit disruptions to your business.

**Securely Access Information** anywhere, anytime with browser-based ECM & workflows that go above and beyond industry security standards.

**Scale Your Investment** as your business expands using dynamic resource levels and additional automation to meet your organization's changing needs.

## The Square 9 Promise

Customers and partners trust Square 9 to deliver innovative solutions, best-in-class service, and a reliable ROI, providing regular feedback across top review platforms.

### Centralized Document Storage

Store, organize, and retrieve all your documents in one secure, easy-to-access digital repository. Say goodbye to manual filing and endless paper trails.

### Manage Automated Workflows

Streamline business processes with built-in workflow automation. Route documents to the right people at the right time, reducing delays and eliminating bottlenecks.

### Seamless Integration

Easily integrate Square 9 ECM with your existing systems, including CRM and ERP platforms. Leverage complete visibility into your processes from a single interface.

### Enhanced Security & Compliance

Keep your sensitive data safe with robust encryption and access controls. Ensure your business stays compliant with industry regulations, like SOC and HIPAA.

## Highly Reliable Service

With 99.9% uptime and SOC 3 and HIPAA compliance, our team does everything in their power to ensure your information is safe and accessible to you.
